Selecting an Article Type is Required for Submission.

To submit your manuscript to this journal, you need to complete all submission steps and approve the PDF that the system creates. Please note that submissions that have not been completed will be removed after 90 days. [\[More information\]](#)

Please select the Article Type of your manuscript from the drop-down menu. The **Guide for Authors** lists the journal's requirements. To read the **Guide for Authors**, click the link in the banner at the top of each page.

You may also view the [Tutorial for Authors](#) for help with each submission step.

If submitting your manuscript to a Special Issue please ensure you select the corresponding article type. IMPORTANT : If your paper is for a special issue, make sure that you select the correct Special Issue Article Type using the drop-down menu below. Special Issue Article Types will have either 'Special Issue' or 'SI' in the name. Not selecting the correct Special issue Article Type may mean your paper might not get included in the special issue, if accepted.

Elsevier encourages authors to connect articles with external databases, giving their readers one-click access to relevant databases that help to build a better understanding of the described research. Please refer to relevant database identifiers using the following format in your article: Database: xxxx (e.g., TAIR: AT1G01020; CCDC: 734053; PDB: 1XFN). See <http://www.elsevier.com/databaselinking> for more information and a full list of supported databases.

This journal allows you to include interactive plots with your online article. If you want to make use of this feature, please upload a CSV (comma-separated values) file as supplementary material at the end of the submission process. For more information and instructions on how to prepare your CSV file, please visit [Interactive Plots](#)
